

Sony Xperia XZ Premium - The Perfect Phone for Photophiles

With a stunning new camera system, an attractive design, and a 5.5-inch 4K resolution display, the Sony Xperia XZ Premium is an impressive handset to say the least.

What sets this phone apart is Sony's new 'Motion Eye' camera, which takes stunning pictures thanks to the 19-Megapixel sensor and f/2.0 aperture sensor. The camera is fast, with laser autofocus and an infrared sensor, which together, produce crisp, sharp pictures with true colours.

Shooting professional looking videos is also a breeze with Sony's 'SteadyShot' stabilisation, which magically removes wobbles from your footage. However, it's really the incredible slow-motion function that will take your breath away.

Aside from the camera, the XZ Premium boasts a solid 3,230mAh battery with QuickCharge 3.0, for fast recharging. The side-mounted fingerprint scanner is also perfectly placed, for painless unlocking. Another positive is that this phone is IP68 dust and water resistant, which means it'll survive a dip in the bath and heavy rain – just don't go deep-sea diving.

The Sony Xperia XZ Premium is available in Black 64GB, with no upfront costs when you take out an airtime plan. Pop in-store and give it a spin.
